ABSTRACT OF THE DISCLOSURE

A communication control method that controls packet communication between a transmitting communication apparatus and a receiving communication apparatus. The

5 method includes the steps of: transmitting to the receiving communication apparatus from the transmitting communication apparatus a plurality of packets in a consecutive manner; and when packets of the plurality of packets transmitted from the transmitting communication apparatus to the

10 receiving communication apparatus are consecutively lost, reporting to the transmitting communication apparatus from the receiving communication apparatus the number of the consecutively lost packets.
